

Miller[®] 140 Auto-Set[™]

Issued September 2010 • Index No. DC/12.42

**MIG Arc Welding Power Source,
Wire Feeder and Gun Package**

Quick Specs

Light Industrial Applications

Light Fabrication
Maintenance and Repair
Auto Body
Farm/Home

Processes

MIG (GMAW)
Flux Cored (FCAW)

Input Power 115 V, 20 A, 60 Hz, Single-Phase

Rated Output 90 A at 18 VDC, 20% Duty Cycle
63 A at 21 VDC, 20% Duty Cycle, **CSA**

Amperage Range 30–140 A

Max. Open-Circuit Voltage 28

The Power of Blue.[®]

Auto-Set[™]: The right settings automatically.

- Set the wire diameter, a blue light shows that **Auto-Set[™]** is activated
- Dial in the thickness of what you're welding
- Start welding with the exact parameters you need!

Infinite voltage control gives you the flexibility to manually set the machine when welding aluminum, stainless steel, or anytime you want to set your own parameters on mild steel.

Smooth-Start[™] provides a smooth, spatter-free start. It's the best-starting machine in the small MIG machine category. No pop gun starts and no spatter to clean up.

Durable cast-aluminum drive system incorporates dual-groove quick-change drive roll and spring-loaded tension arm with calibrated tension knob, all designed to make set up easier and faster.

Thermal overload protection shuts down unit and activates the **over temperature light** if airflow is blocked or duty cycle is exceeded. Automatically resets when fault is corrected and unit cools.

Miller's "Tip Saver" short circuit protection shuts down output when tip is shorted to the work. Extends contact tip life and protects internal components from damage. **Trigger reset** permits quick reset at torch rather than unit.

Self-resetting motor protection circuit eliminates the need to find and replace fuses.

Comes Complete With:

- Power source
- 6 ft (1.8 m) power cord and plug
- 10 ft (3 m), M-100 MIG gun and cable assembly
- 10 ft (3 m) work cable and clamp
- Smith[®] Argon and AR/CO₂ mix regulator/flow gauge with hose
- Spool of Hobart[®] .030 in (0.8 mm) solid wire
- Two contact tips for .024 in (0.6 mm) wire and two contact tips for .030 in (0.8 mm) wire
- Dual-groove quick-change drive roll for .024 in (0.6 mm) or .030/.035 in (0.8/0.9 mm) wire
- Factory-installed gas solenoid valve
- Set-up and operation CD
- Information/settings chart
- Material thickness gauge #229 895

Note: Shielding gas and safety equipment not included.

Easy access to output studs provides **convenient polarity changeover** when changing from solid or flux cored wires.

Semiautomatic constant-voltage wire welding package is capable of welding 24 gauge up to 3/16 in (0.8–4.8 mm) mild steel.

Standard built-in solid-state contactor circuit makes wire electrically "cold" until trigger is pulled, making the unit safer. It's also easier to position torch to work before starting weld.

Uses 4 or 8 in (102 or 203 mm) spools and can be set up to weld with wire sizes .024–.030 in (0.6–0.8 mm) mild/stainless steel and .030–.035 in (0.8–0.9 mm) flux cored.

TRUE BLUE[®]
3 YR. WARRANTY

Welder is warranted for 3 years, parts and labor. Original main power rectified parts are warranted for 5 years.
Gun warranted for 90 days, parts and labor.

Auto-Set™ Feature

The Millermatic® 140 Auto-Set™ offers all the benefits of a standard MIG machine, but adds Auto-Set to eliminate the guesswork.

Use Auto-Set when you want the speed, convenience and confidence of pre-set controls. Simply set the wire diameter, set the material thickness, and go! The Auto-Set control automatically sets your welder to the proper parameters. It is available when welding mild steel with solid wire and only works with .024 and .030 solid wires and C25 shielding gas (75% Argon, 25% CO₂).

When not within the Auto-Set profiles, use the manual mode to set the weld parameters you desire. The parameter door chart lists voltage and wire feed speed settings options.

Auto-Set Mode

- Turn wire speed control fully clockwise to select Auto-Set mode. Set the wire diameter to either .024 or .030 in.
- Light indicates Auto-Set mode is activated.
- Set the material thickness within Auto-Set range for 24 gauge through 3/16 in mild steel. The welder automatically sets itself to proper parameters, and is ready to weld!

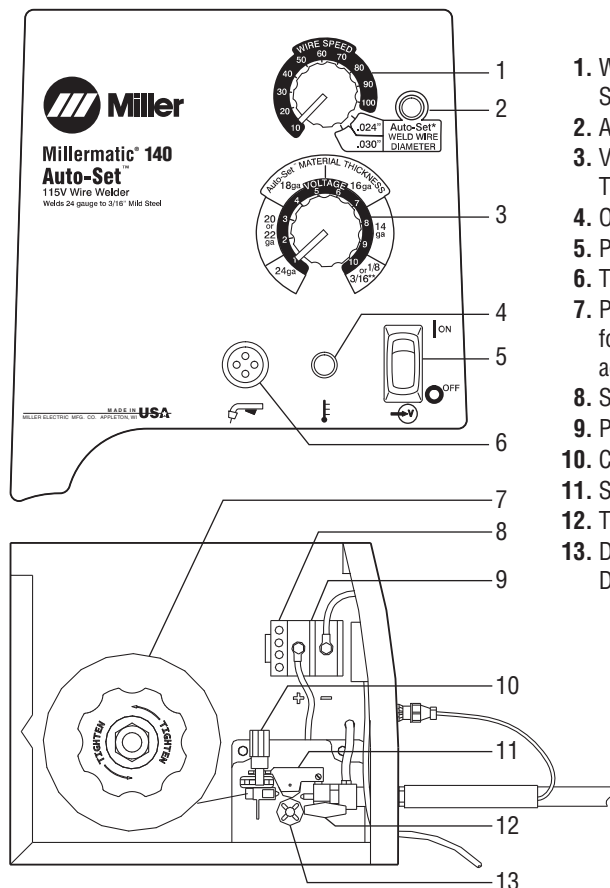

Specifications (Subject to change without notice.)

Rated Output	Amperage Range	Max. Open-Circuit Voltage	Amps Input at Rated Output, 60 Hz			Wire Feed Speed	Dimensions	Net Weight	Ship Weight
			115 V	KVA	KW				
90 A, 18 VDC at 20% Duty Cycle	30–140 A	28	20	2.8	2.4	15–390 IPM (0.4–9.9 m/min); 35–420 IPM at no load (0.9–10.7 m/min)	H: 15-3/4 in (400 mm) W: 10-5/8 in (273 mm) D: 17-1/2 in (444 mm)	60 lb (27.3 kg)	67 lb (30.5 kg)
63 A, 21 VDC at 20% Duty Cycle, CSA			15	2.1	1.8				

Certified by Canadian Standards Association to both the Canadian and U.S. Standards.

Control Panel

1. Wire Feed/Wire Diameter Speed Control
2. Auto-Set Light
3. Voltage Control/Material Thickness
4. Over Temperature Light
5. Power Switch
6. Trigger Lead Switch Connection
7. Plastic Hub with Retaining Ring for 8 in Spools (shaft also accepts 4 in spools)
8. Storage Holes for Spare Tips
9. Polarity Changeover Terminals
10. Calibrated Tension Knob
11. Springloaded Tension Arm
12. T-Knob (secures torch)
13. Dual-Groove Quick-Change Drive Roll

Performance Data

Genuine Miller Accessories

Spoolmate™ 100 Series Spool Gun #300 371

Direct connect spool gun for all Millermatic 140, 180, 211 and Passport Plus models. Handles .030–.035 in (0.8–0.9 mm) aluminum and .023–.035 in (0.6–0.9 mm) steel/stainless steel wires. Rated at 135 amps, 30% duty cycle. Includes 12 ft (3.7 m) cable assembly and custom carrying case.

M-100 Replacement Gun #248 282
10 ft (3 m). Shipped with liner #194 011.

Millermatic Protective Cover #195 149

Running Gear/ Cylinder Rack #770 187

Heavy-duty construction. Convenient handle on front with cable holders. For gas cylinders no larger than 7 in (178 mm) diameter, maximum weight 100 lb (45 kg).

Small Running Gear/Cylinder Rack #300 425

Durable construction. For gas cylinders no larger than 7 in (178 mm) diameter, maximum weight 75 lb (34 kg).

Purchase the Millermatic 140 Auto-Set package (#907 335-01-1) and receive the Millermatic 140 Auto-Set and Small Running Gear/Cylinder Rack (#300 425) packaged together!

Consumables (Order from Miller Service Parts.)

For M-100 Gun

Contact Tips

#087 299 .024 in (0.6 mm)
#000 067 .030 in (0.8 mm)
#000 068 .035 in (0.9 mm)
#000 069 .045 in (1.2 mm)

Contact Tip Adapter #169 716

Replacement Liners

#194 010 .024 in
#194 011 .030–.035 in (standard)
#194 012 .035–.045 in

Nozzle #169 715

1/2 in (13 mm) diameter orifice. Nozzle flush with contact tip (standard).

Gasless Flux Cored Nozzle #226 190

For use with self-shielding flux cored wires. Improves visibility, eases access in tight corners, protects tip adapter/gas diffuser from spatter and from shorting to the work piece. For use with the M-100 gun.

Drive Rolls — Quick Change

Dual Groove, V-Smooth #220 179

For .024, .030 and .035 in (0.6, 0.8 and 0.9 mm) wire.

Dual Groove, V-Knurlled #202 926

For .030/.035 in (0.8/0.9 mm) or .045 in (1.2 mm) flux cored wire.

M-Series Gun Consumable Kits

#234 607 .024 in (0.6 mm)
#234 608 .030 in (0.8 mm)
#234 609 .035 in (0.9 mm)

Each kit contains 10 contact tips, 1 nozzle, and 1 contact tip adapter.

For Spoolmate™ 100 Series

Contact Tips (5 per package)

#199 730 For .024 in (0.6 mm) wire.
#186 419 For .030 in (0.8 mm) wire.
#186 406 For .035 in (0.9 mm) wire.

Nozzle #186 405

Drive Roll (1) #186 413

For .030/.035 in (0.8/0.9 mm) wire.

Push Roll (1) #186 414

For .030/.035 in (0.8/0.9 mm) wire.

Typical Installations

**MIG (GMAW) or Flux Cored (FCAW)
Basic Equipment**

**Aluminum MIG (GMAW)
Basic Equipment**
